WHAT'S INSIDE: TRANS IN THE SOUTH

3 HOW TO USE THIS RESOURCE GUIDE

5 ABOUT THE CAMPAIGN FOR SOUTHERN EQUALITY
AND THE LGBT RIGHTS TOOLKIT

6 RESOURCES IN SOUTHERN STATES

27 RESOURCES FOR FUNDING YOUR TRANSITION

35 GLOSSARY OF TERMS

37 ADDITIONAL RESOURCES

DISCLAIMER:

This document provides information about acquiring medical or attorney referrals; it is not medical or legal advice. Moreover, due to the rapidly changing nature of the law and our reliance on information provided by outside sources, we make no warranty or guarantee.

HOW TO USE THIS RESOURCE GUIDE

Welcome to *Trans in the South: A Guide to Resources and Services*. We're glad you found this resource guide, and hope it will assist you on your journey! In the following pages you'll find lists of service providers throughout the South, helpful terms, and resources to assist with funding medical transition.

Accessing friendly therapists, medical providers, and legal assistance can be really difficult as a trans person in the South, especially if you don't know where to start, or who to reach out to. That's why we created this resource guide.

We use the word trans as an umbrella term to refer to anyone whose gender identity differs from the sex they were assigned at birth, including non-binary and gender diverse identities. If you want to learn more about other important terms, check out the glossary in the back of this guide.

Trans in the South offers resources for trans folks in Alabama, Arkansas, Florida, Georgia, Kentucky, Louisiana, Mississippi, North Carolina, South Carolina, Tennessee, Virginia and West Virginia.

Resources in this guide are divided by type of services offered within each Southern state. So, if you're looking for an endocrinologist in South Carolina for example, just scroll down to South Carolina and look for the heading "ENDOCRINOLOGY."

I compiled these resources from trans folks who reported having a positive and affirming experience using these services, referrals from trans-friendly providers, and pulling from other resource guides that list these providers as being trans-friendly. To confirm the status of these resources as trans-friendly, I called each provider and spoke with the staff at that agency. I only included providers who report actively working with trans folks in this guide.

Some providers offered additional information about their practice like accepting insurance, charging on a sliding scale, offering Hormone Replacement Therapy, or working with youth, etc. These are marked with icons. We still encourage calling the provider you're interested in and asking about the specific services you're seeking.

This edition of *Trans in the South* was compiled in September of 2016 and can be downloaded at www.southernequality.org/transinthesouth, a shareable PDF file. We'll be collecting new resources and updating the guide annually moving forward. If you have additional resources, questions, or feedback, please email them to me at Ivy@southernequality.org.

I hope you'll find this guide helpful. Thanks for accessing *Trans in the South: A Guide to Resources and Services*!

Best Wishes,
Ivy Gibson-Hill
LGBT Rights Toolkit Coordinator, Campaign for Southern Equality

ICONS IN THIS GUIDE

Writes Letters - Many endocrinologists and surgeons require a letter from a mental health professional before they will move forward with assisting with medical transition. These mental health professionals will write the letters that are required for Hormone Replacement Therapy and/or surgery. If this icon is beside an endocrinologist, it means they will write the necessary letters to change gender markers on legal documents without requiring the patient to undergo surgery.

Doesn't Write Letters - These providers report being trans-friendly; however they won't write the letters folks need to begin HRT, undergo surgery, or change gender markers legal documentation.

Requires Letter - These providers do not offer treatment with informed consent, but require a letter from a therapist before beginning HRT.

Informed Consent - These providers do not require a letter from a mental health professional to begin HRT.

Sees Adolescents - These providers will assist individuals under 18 with their medical transition.

Offers HRT - Hormone Replacement Therapy is a big step for many trans folks. The general providers that are marked with this symbol offer HRT in their office. This cuts the step of also finding an endocrinologist.

OB/GYN - These providers also offer pelvic exams for trans men.

Planned Parenthood - These providers operate within Planned Parenthood offices. Most Planned Parenthood affiliates offer HRT with informed consent.

Scheduling 6 Months to a Year Out - At the time that we called, these providers reported scheduling 6 months to a year out for new patients.

Doesn't Take Insurance - These providers report that they don't accept any insurance.

Takes Insurance - These providers report accepting insurance.

Charges on a Sliding Scale - These providers report charging on a sliding scale based on need.

Free Sessions Available - Some providers report working with local clinics in order to provide free sessions to the clients who aren't able to make payments even on a sliding scale basis. We encourage calling providers with these icons and asking about the process to take advantage of those free needs-based services.

Veterans Only - These providers only work with veterans.

Student Counseling Services - These providers are trans-friendly, but they are only available to students at their university.

ABOUT

THE CAMPAIGN FOR SOUTHERN EQUALITY

LGBT people live in every town across the South and 35% of all LGBT Americans call the South home. LGBT Southerners live each day with dignity and strength. But the fact remains that across the South, LGBT people lack basic legal protections, face robust opposition to our rights and have limited resources for advocacy. LGBT people in our region are also at an elevated risk of poverty. Beyond this, the South receives less than eight percent of the total annual funding that goes to LGBT organizations nationally. For these reasons, the South is often written off as “unwinnable.”

**LEARN MORE AT
WWW.SOUTHERNEQUALITY.ORG**

But we hold a different view about what’s possible in the South. To combat these structural issues, CSE was launched in 2011 after a six-year planning period to work toward full LGBT equality in the South. We are

based in Asheville, NC, and work across the South.

We feel deeply hopeful and we also know what’s at stake for so many in our community. This combination of hope and urgency fuels and inspires us.

THE LGBT RIGHTS TOOLKIT

The Campaign for Southern Equality’s LGBT Rights Toolkit responds directly to the needs of our community. We focus on providing programs and services to help LGBT Southerners understand and protect their rights and access services and resources to live healthy, thriving lives. Current programs include our digital toolkit (www.lgbtrightstoolkit.org); pop-up clinics that provide direct services and resources such as name change clinics; and providing training, networking and funding to support frontline providers of culturally-competent direct services.

MORE RESOURCES IN NORTH CAROLINA

Charlotte Transgender Health Group maintains an expansive list of trans-friendly providers in the Charlotte area:

The Charlotte Transgender Healthcare Group (CTHCG) is a multi-disciplinary team of licensed medical and mental health providers who work with gender-diverse individuals of all ages in the Charlotte and surrounding area. They collaborate with one another in order to stay informed about best practices, engage in case consultation, collect resources and referrals for trans-affirming services, communicate about current events, and engage in advocacy efforts.

Below are links to their service provider guides:

- Mental Health Professionals Who Work with Adolescents: www.cthcg.org/mental/youth
- Mental Health Professionals for Adults: www.cthcg.org/adult
- Endocrinologists and General Practitioners Who Offer HRT: www.cthcg.org/medical

TranzMission maintains a list of trans-friendly providers in Western North Carolina, including mental health professionals, general practitioners, endocrinologists, and other miscellaneous resources. RESOURCES FOR FUNDING YOUR TRANSITION

Hi! So, you found the doctor you're looking for, but you don't know how you're going to pay for it? You're in the right place! This section of the guide is all about how to fund your transition.

This section was pulled from another resource guide I created which can be found at www.lgbtrightstoolkit.org. This is a compilation of research on grants that are available to assist trans folks with medical transition, helpful things to know about insurance coverage, and tips and tricks to assist with crowd-funding. All information contained herein is current, to the best of our knowledge, as of September 2016.

If you have additional resources to add, or would like to report out of date information for this funding section of the guide, please email me at Ivy@southernequality.org.

Additionally the Human Rights Campaign maintains a list of employers who offer at least one trans inclusive healthcare plan that can be found in the Corporate Equality Index, which they publish annually at www.hrc.org/resources/corporate-equality-index-list-of-businesses-with-transgender-inclusive-heal. This has been very helpful for many folks, as you can find employers like Starbucks who offer trans inclusive healthcare plans after only six months of part-time employment.

I know looking at the expenses involved in medical transition can feel really overwhelming, especially for a segment of the population that faces the high rates of under and unemployment that we face. That's why I created this guide, and I hope you'll find it helpful on your journey!

Best Wishes,

Ivy Gibson-Hill
LGBT Rights Toolkit Coordinator
Campaign for Southern Equality

GRANTS & FUNDING FOR TRANSITION EXPENSES

THE JIM COLLINS FOUNDATION

The Jim Collins Foundation now offers two grant options. General Fund grants cover 100% of the medical fees associated with gender-affirming surgery. Grants from the Krysallis Anne Hembrough Legacy Fund cover 50% of the medical fees associated with gender-affirming surgery and require each recipient to match each dollar of funds received with a dollar of their own money or other money raised by the recipient. Applicants may only apply once per grant cycle and in their application must choose to be considered for either the General Fund or the Krysallis Anne Hembrough Legacy Fund.

Criteria for the Jim Collins Foundation Grants

Applicant must understand the steps that are currently required to undergo the medical process of transition, and must have completed (or have outlined plans to complete) the following steps:

- Secure a letter of support from a licensed medical or mental health professional, such as a psychologist, psychiatrist, social worker, or therapist.
- Select a surgeon who is knowledgeable in transition-related surgeries. If applicant is chosen, the organization assumes this named surgeon is final.
- Identify who will care for and provide support post-surgery.
- If applicant has not completed all of these steps, but is planning to do so, please include your plans in your application.
- Note: If you are selected for funding, the payment will be made directly to the doctor or hospital facility. You must comply with any and all requirements according to the Standards of Care of the World Professional Association for Transgender Health's (WPATH), formerly known as the (Harry Benjamin International Gender Dysphoria Association, HBGDA), as determined by your selected surgeon.
- Applicant must demonstrate a genuine need for financial assistance.
- Applicant must detail the efforts they have made to fund-raise and the amount of cost that they will be able to cover on their own, if any.

The Jim Collins Foundation makes selections for grants based on a combination of demonstrated financial need and level of preparedness.

GRANTS & FUNDING FOR TRANSITION EXPENSES

CK LIFE SCHOLARSHIP FUND

ONE surgery must be selected per application number (Hysterectomy With GCS will count as one surgery. Multiple FFS which are performed by the same surgeon in one operation will count as ONE surgery.) If you would like to be considered for different types of surgery, you may request a different application number for each type of surgery, but you must complete an entire application for each application number.

Criteria for the CK Life Scholarship Fund

- Cover Page
- Name (*Both Legal and Preferred, if different*)
- Date of Birth
- Contact Info (*Email and/or Telephone*)
- Must State which ONE Surgery* you are asking for assistance accessing.
- Name of Surgeon(s) you prefer, along with the surgeon's contact info. An alternate surgeon MUST be named. If no alternate surgeon is listed an explanation must be given.

Personal Statement

- Write a personal statement of no more than 1000 words. (*Anything beyond 1000 words will NOT be read.*)
- Detail what efforts you have made to fund raise or save towards your surgery.
- Please include in this statement who will care for you and provide support post-surgery.
- Include how having surgery will impact your life. (*Please be as specific as possible.*)
- What will you do to try and afford surgery if you are not granted a scholarship? (*Be as specific as possible.*)

Professional Letter

- One letter from a Medical OR Mental Health Provider.
- Acceptable Providers: MDs, DOs, PHDs, Nurse Practitioners, Psychiatrists, Social Workers, Therapists, Counselors (*if any questions about your provider, email us.*)
- Letter must state how long you have been in transition and what steps you have taken/completed in your transition process.
- Note: We understand there is no one way to transition, but applicants must meet WPATH standards of care with regards to being eligible for scholarship approval. For a list of standards, check out the WPATH.

GRANTS & FUNDING FOR TRANSITION EXPENSES

Personal Reference

- From someone you know stating why they think you should be selected for a scholarship.
- Contact information should be included because the individual may be contacted for clarification and/or verification.
- Must be a maximum of 500 words. (*Over 500 words Will NOT be read.*)

Financial Statement

- State annual income and source of income
- Annual expenses
- Amount saved toward surgery, if any, with a break down (*i.e. \$500 for travel saved, \$1,000 toward surgery saved etc.*)
- Amount still needed toward surgery
- State whether or not you have insurance. If you have insurance, state what kind and why you are unable to use it for surgery.

All applicants will be given an application number. You can request an application number by emailing scholarshipfund@ccklife.org. This number must be included on each page of application materials to help keep track of application.

Any awarded funds MUST be used within 3 months (for all non-genital surgery procedures) or 6 months (for genital surgeries) of time they are awarded. If there are extenuating circumstances (such as surgeon has a long waiting list) then that time frame may be extended based on the circumstances. If the funds are not used in an appropriate amount of time, then the funds will go back into the pool of money toward the next scholarship cycle.

If you have any questions or concerns regarding this application process, please email: scholarshipfund@ccklife.org

TRANS* LOVE FUND

The Trans* Love Fund is a program of We Are Family, an organization dedicated to providing resources, support and leadership development to LGBTQ+ youth. The Trans* Love Fund is dedicated to helping the transgender community of South Carolina by providing microgrants to trans* identified individuals for medical, legal, and emergency living expenses. Apply through www.wearefamilycharleston.org.

POINT 5CC SURGERY FUND

Point 5cc Surgery Fund awards money raised from T-shirt sales to go toward one person's gender affirming surgery each year. The grants are awarded in February. No criteria is up on their site currently. This year they awarded just over \$1,200 to one person and had 57 nominations and 103 applications. For more information check out www.point5cc.com

GRANTS & FUNDING FOR TRANSITION EXPENSES

RIZI TIMANE MINISTRIES

Transgender Hormone Fund has awarded scholarships of \$1,500 to 6 transgender women to assist with the purchasing of hormones each year. They also provide one surgery grant to a trans* person each year.

Please write a letter of interest and email it to rizi@rizitimaneministries.org for consideration. In the letter, be sure to tell us a bit about yourself (where are you from; are you GNC, FTM, or MTF; how far are you in transition; why do you need this fund; and other pertinent information.)

TUFF

Founded in 2013, Trans United with Family and Friends (TUFF) aims to provide access to healthcare, transition services, safe housing and education for the underserved transgender population. TUFF offers individualized case management by pairing recipients to programs tailored to their specific needs. By focusing on the healthcare aspect of each recipient, TUFF also helps improve other aspects of their lives. TUFF holistically looks at the needs of each person, and has realized that if one area of someone's life improves, so will others. While most of TUFF's applicants express need with healthcare issues, it is clear that addressing these problems helps to improve others areas of their lives. For example, many of our applicants are unable to become employed because their body does not match their identity.

By being able to transition and receive healthcare, they are suddenly that much more employable. It is clear that people who have been able to transition are much more functional, confident and productive members of society.

At this moment, TUFF get on average 100 applications per month for funding and resource requests. About a third of the applicants have no other options to find help and access to healthcare, schooling, safety and shelter and are at very high risk of suicide, homelessness and financial distress. TUFF will be at the forefront of this movement by providing resources and options for these individuals.

To apply for a grant download and submit their application form at www.tufforg.wixsite.com/tuffnew.

THINGS TO KNOW ABOUT INSURANCE COVERAGE

The tides are turning: more and more insurance companies in the United States are accepting the medical necessity of FTM chest surgery and covering this procedure for transgender men.

Additionally, there are a number of states that now prohibit discrimination and legally require insurance companies to provide transgender health coverage.

The medical necessity of GCS has been affirmed by the American Medical Association, American Psychiatric Association, and World Professional Organization for Transgender Health, as well as the insurance company, Aetna.

Keep in mind that coverage varies between health insurance companies, states, and plans. Don't assume that one company, state or plan is consistent with their level of coverage. Read your policy completely—not just the summary—and look for the exclusions and limitations section.

COMMON REQUIREMENTS

To get top surgery covered by insurance, there are a number of requirements. Some of the hoops you may need to go through include:

- Meeting the insurance company's basic criteria: legal adult status; Gender Dysphoria diagnosis; support letters from qualified mental health practitioners, your primary care provider and your surgeon.
- Having to pay out-of-pocket for surgery, then getting a reimbursement from the insurance company.
- Having to be evaluated by a board of in-network doctors.
- Finding in-network surgeons who have top surgery experience.

If you live in a state where surgery coverage is not mandated by law, you still might be able to get your top surgery covered via student health insurance or the insurance appeals process.

THINGS TO KNOW ABOUT INSURANCE COVERAGE

THE AFFORDABLE CARE ACT

The Affordable Care Act and The Patient's Bill of Rights add several important protections in health insurance that affect transgender people:

- **Elimination of coverage denials:** Anyone can apply for health insurance and receive coverage for the care they need, regardless of their gender. (For example, hysterectomy coverage for a trans man.)
- **Pre-existing condition acceptance:** Insurers are no longer able to deny a person coverage based on having what an insurance company considers a pre-existing condition, which has included being transgender.
- **Plan cancellations are now illegal:** Canceling a plan used to be a way for health insurers to cancel coverage when a person's health needs changed, such as coming out as transgender.

For more information about the ACA, see this article: <http://obamacarefacts.com/questions/is-there-transgender-health-coverage/>

CROWDFUNDING FOR TRANSITION

PLANNING YOUR CAMPAIGN

- Write an honest letter to your would-be funders about why you need the funds. Ask for what you need and not more.
- Keep in mind that running and publicizing a crowdfunding campaign can be quite time consuming. Delay your campaign if you're overworked, burned out, etc.
- Have realistic expectations: more than half of Kickstarter campaigns fail to make their goal. Assume that only 1% of your contacts will contribute.
- The currency of crowdfunding is relationships, so get your target audience right. If all your friends are broke and also saving for surgery, you'll need to re-think your plans.
- Make a great video promoting your campaign and put it on your donation page. Be creative, entertaining and honest. Solicit an emotional response.
- If you're offering rewards / backer levels, structure them carefully and budget the cost of fulfillment. While the average donation amount will probably be under \$50, use your creativity to create attractive "upper end" rewards as well.
- Study successful campaigns and try to reverse-engineer their path to success.

CROWDFUNDING SERVICES

Before you pick a crowdfunding service, consider: Do you really need one? These services take a commission on the funds raised (examples below.) Many people have had good success using a self-hosted donation page (hosted on their websites or on WordPress.com/Blogspot/etc.) with a form integrated with PayPal or WePay, where fees hover around 3%. Here are some popular services and their fee schedules, as of September 2016:

- DonationTo: 5% + PayPal or Wepay fees (typically 2.9% plus \$.30 per transaction). 0% Paid accounts also available.
- Fundly 7.9%
- FundRazr 5% + PayPal fees (typically 2.9% plus \$.30 per transaction)
- GiveForward* 7% - **Specifically for medical fundraising**
- GoFundMe 7.9% + 0.30
- GoGetFunding: 4% + PayPal fees (typically 2.9% + \$0.30 per transaction)
- Indiegogo: 4%-9%
- RocketHub: 8% – 12%
- You Caring: \$0 + PayPal or Wepay fees (typically 2.9% plus \$.30 per transaction)

GLOSSARY OF TERMS

CISGENDER

A term for someone whose gender identity corresponds with the sex they were assigned at birth; not transgender.

DRAG KING

A person who is expressing hyper masculinity through performance art.

DRAG QUEEN

A person who is expressing hyper femininity through performance art.

GENDER

A socially constructed system for classifying people into categories. Different cultures use different systems for this classification.

GENDER CONFIRMATION SURGERY

Any form of surgical procedure performed on a transgender or gender nonconforming person in order to make their primary or secondary sex characteristics better reflect their gender identity. This may include different types of “top surgery”, “bottom surgery”, or other procedures. Contrary to popular belief, there is not one surgery; in fact there are many different surgeries. Not all transgender or gender nonconforming people desire gender confirmation surgery and each person’s pathway to medical transition is unique. “Gender Confirmation Surgery” is preferable to the previously used term “Gender Reassignment Surgery”, and many consider “sex change surgery” derogatory.

GENDER EXPRESSION

Refers to the ways in which we each manifest masculinity, femininity, both, or neither. Gender expression may or may not align with someone’s gender identity. This visible expression of gender includes hairstyles, clothing choices, body language, etc.

GENDER IDENTITY

One’s innermost concept of self as it relates to gender. How individuals experience gender personally. One’s gender identity can be the same or different from their sex assigned at birth. Gender identity cannot be seen from looking at a person.

GENDERING

The act of assigning a gender to another person. Incorrectly assigning a gender to another person is called misgendering.

GLOSSARY OF TERMS

GENDER NON-CONFORMING

A term for individuals whose gender identity or expression falls outside the gender binary of man and woman. Some examples of gender non-conforming identities include genderqueer, agender, bigender, gender fluid, etc.

INTERSEX

A general term used for a variety of conditions in which someone's body doesn't seem to fit the typical definitions of male and female. We often associate intersex with conditions seen at birth, but there are many conditions that aren't seen at birth, such as androgen insensitivity syndrome, for example.

PRONOUN

The words used to refer to someone instead of using their name. He is a masculine pronoun; she is a feminine pronoun; they is a neutral pronoun. Pronouns are the most common way that we gender people.

QUEER

An umbrella term used to refer to sexual and gender minorities that are not cisgender or heterosexual.

TRANSGENDER

An umbrella term for people whose gender identity differs from the sex assigned to them at birth. Transgender is often shortened to "trans", and is inclusive of gender nonconforming identities.

SEX

The categorization of people based on external physical characteristics (e.g., hip to shoulder ratio, facial and body hair, vocal pitch, muscle mass, genital configuration, etc.)

SEXUAL ORIENTATION

A person's sexual identity in relation to the gender or sex they are attracted to.

TRANSGENDER MAN

A person who was assigned the sex of female or intersex at birth and identifies as male.

TRANSGENDER WOMAN

A person who was assigned the sex of male or intersex at birth and identifies as female.

TRANSITION

The period during which a person begins to live as their true gender. Transitioning may include changing one's name, changing their presentation, taking hormones, having surgery, or changing legal documents to reflect their true gender. Or transition may not include any of those things, depending on what that person wants or doesn't want.

ACKNOWLEDGEMENTS

Thank you for checking out *Trans in the South: A Guide to Resources and Services!*

We are grateful to those who maintain other resource guides.

These resources include Trans Bucket, RAD Remedy, Funding your transition: A Resource Guide, Southeastern Trans Resource Guide, Charlotte Transgender Healthcare Group, TranzMission, LGBT Patient Care Collaborative in Upstate SC, HRC's Safer Sex for Trans Bodies, and trans folks living across the South.

We'd also like to thank providers who have shared information and resources, including Dr. Claire Farel and the Transgender Health Program at WNCCHS.

If you have additional resources to add to *Trans in the South*, or you want to report out-of-date information, please email me at ivy@southernequality.org.

I hope this guide improves your experience accessing services. I give many thanks to the providers who are listed here and to the organizations and agencies working every day to ensure that trans folks in the South have access to resources, services and support.

Best wishes,
Ivy Gibson-Hill
