This book is for the folks who thought transition would never be an option for them. For the ones who have been told they aren’t trans enough. For the rural Southern trans kids who feel like they are alone in this world.

This book is for all the trans and gender expansive Southerners who insist on continuing to breathe day after day. The ones who are bold enough to embrace self definition in a world that was not built for us to thrive.

Trans in the South is dedicated to every trans Southerner who persists in growing in this rocky clay soil. We face unique challenges that other folks may never understand, but may we never forget the beauty, strength, and resiliency that lives in each one of us. You are not alone.

How to use this resource guide

About the Campaign for Southern Equality and Community Health Program

Resources in Southern States

Resources for Funding Your Transition

Welcome to *Trans in the South: A Guide to Resources and Services*, compiled by the Campaign for Southern Equality.

Our hope is that every trans person in the South can access the services and support they need to be healthy and to thrive. Our goal is that this resource guide is a helpful tool in that journey. In these pages you’ll find lists of service providers throughout the South, information about insurance coding, and resources to assist with funding medical transition.

Accessing friendly therapists, medical providers, and legal assistance can be difficult as a trans person in the South, especially if you don’t know where to start or who to reach out to. That’s why we created this resource guide.

*Trans in the South* offers resources for trans folks in Alabama, Arkansas, Florida, Georgia, Kentucky, Louisiana, Mississippi, North Carolina, South Carolina, Tennessee, Texas, Virginia, and West Virginia. Resources in this guide are divided by type of services offered within each Southern state. So, for example, if you’re looking for an endocrinologist in South Carolina, just scroll down to South Carolina and look for the heading “ENDOCRINOLOGY.”

For the 2019 update, we made an essential shift in the leadership and process of updating the guide, driven by the knowledge that no one knows the needs and resources in their local areas better than local leaders. This year’s guide was expanded by the amazing *Trans in the South* Research and Development Team, made up of trans folks from across the South who each focused on adding more resources from the areas where they live. We cannot thank them enough for all their work to help connect trans folks to the resources they need to lead full and healthy lives! Meet this incredible team on page 7.

We compiled these resources based on input from the Research and Development Team, trans folks who reported having a positive and affirming experience using these services, referrals from trans-friendly providers, and pulling from other resource guides that list these providers as being trans-friendly. To confirm the status of these resources as trans-friendly, we called each provider and spoke with the staff at that agency. We only included providers who report actively working with trans folks in this guide.

Some providers offered additional information about their practice like accepting insurance, charging on a sliding scale, offering Hormone Replacement Therapy, or working with youth. These are marked with icons. We still encourage calling the provider you’re interested in and asking about the specific services you’re seeking.

This year, we’ve added a screening for Spanish-speaking providers or providers that offer Spanish interpretation services. We’re also piloting an interactive map of all listings, which you can access at [www.southernequality.org/transinthesouth](http://www.southernequality.org/transinthesouth).

This edition of *Trans in the South* was published in January 2019 and can be downloaded at [www.southernequality.org/transinthesouth](http://www.southernequality.org/transinthesouth). We’ll be collecting new resources throughout the year and updating the guide annually. If you have additional resources, questions, or feedback, please email them to me at ivy@southernequality.org.

Publishing this annual update is an important project at CSE, something we’re both proud and honored to do to serve the Southern trans community. Our whole CSE staff team has contributed to this project.

Thanks for accessing *Trans in the South*. I hope you’ll find it helpful!

Best Wishes,
Ivy Gibson-Hill
Campaign for Southern Equality
Community Health Program Director
Healthcare providers have shared specific details about their work for inclusion in Trans in the South: A Guide to Resources and Services. Our team has confirmed these details with providers, but the absence of icons does not necessarily mean that the provider does not meet one or more of these specifications. Contact providers directly with any questions.

**Offers Hormone Replacement Therapy (HRT)** - Hormone Replacement Therapy is a big step for many trans folks. The general providers that are marked with this symbol offer HRT in their office. This cuts the step of also finding an endocrinologist.

**Writes Letters** - Many endocrinologists and surgeons require a letter from a mental health professional before they will move forward with assisting with medical transition. These mental health professionals will write the letters that are required for Hormone Replacement Therapy and/or surgery. If this icon is beside an endocrinologist, it means they will write the necessary letters to change gender markers on legal documents without requiring the patient to undergo surgery.

**Doesn’t Write Letters** - These providers report being trans-friendly; however they won’t write the letters folks need to begin HRT, undergo surgery, or change gender markers on legal documentation.

**Requires Letters** - These providers do not offer treatment with informed consent, but require a letter from a therapist before beginning HRT.

**Informed Consent** - These providers offer treatment with informed consent and do not require a letter from a mental health professional to begin HRT.

**Sees Adolescents** - These providers will assist individuals under the age of 18 with their medical transition.

**OB/GYN** - These providers also offer pelvic exams for trans men.

**Planned Parenthood** - These providers operate within Planned Parenthood offices. Most Planned Parenthood affiliates offer HRT with informed consent.

**Scheduling 6 Months to a Year Out** - At the time that we called, these providers reported scheduling 6 months to a year out for new patients.

**Doesn’t Take Insurance** - These providers report that they don’t accept any insurance.

**Takes Insurance** - These providers report accepting insurance.

**Charges on a Sliding Scale** - These providers report charging on a sliding scale based on need.

**Free Sessions Available** - Some providers report working with local clinics in order to provide free sessions to the clients who aren’t able to make payments even on a sliding scale basis. We encourage calling providers with these icons and asking about the process to take advantage of those free needs-based services.

**Veterans Only** - These providers only work with veterans.

**Serves Spanish-Speaking Populations** - These providers offer their services in Spanish.

**Student Counseling Services** - These providers are trans-friendly, but they are only available to students at their university.

**Support Group** - These providers also offer peer support groups.
Based in Asheville, North Carolina, the Campaign for Southern Equality (CSE) promotes full LGBTQ equality - both legal and lived - across the South. Our work is rooted in commitments to equity in race, gender and class.

One third of all LGBTQ Americans live in the South, including more than one third of all trans Americans. Yet across the region, LGBTQ people lack basic legal protections, face robust opposition to our rights and have limited resources for advocacy and direct services. LGBTQ people in our region are also at an elevated risk of poverty and health disparities. Our community meets every definition of political powerlessness, evidenced most recently by the wave of anti-LGBTQ bills sweeping the South and by a lack of elected representation in local, state and federal offices. While national funding to the LGBTQ South is increasing (it has grown from less than 8% to 25% in recent years), the majority goes to large metro areas and large organizations within the South.

At the same time, LGBTQ Southerners live each day with courage and strength. Every day, we hear stories about how the South is changing and how support for equality is growing. Our work starts by asking what a LGBTQ Southerner needs when they are ready to lead equality efforts in their hometown, or ready to access support and services. Responding to this complex mix of urgent needs and entrenched structural issues requires a new approach. Tactically, this requires that we use a range of tools in our work, including direct services, direct action, litigation, grant-making, and long-term organizing strategies to support a new generation of LGBTQ leaders and to build political power.

Through our Community Health Program, we respond to the acute and widespread need for direct services and resources for LGBTQ Southerners. Current programs include our digital toolkit which provides information about concrete ways LGBTQ Southerners can protect their rights and access support; free Pop-Up clinics that provide direct services and resources on topics such as name changes and family rights; our new Southern LGBTQ Health Initiative, a partnership with Western NC Community Health Services to increase access to LGBTQ-friendly care at Southern Community Health Centers; publishing the Trans in the South guide with annual updates; and providing training and funding to support frontline providers of culturally-competent direct services. Since launching, CSE has run more than 140 free LGBTQ legal and resource clinics across the South, serving more than 4,000 people.
The *Trans in the South* guide is for the trans community and created by the trans community. No one knows what local folks need better than local leaders. Meet the team of amazing trans leaders from across the South who helped lead efforts to identify more resources and help connect trans folks with those resources.

**Kayla Gore**  
Pronouns: She/her/hers  
Kayla Gore is an incredible leader in the trans community based in Memphis, Tennessee. Kayla has an extensive history in advocating for the trans community. From working to end chronic homelessness in the trans community to advocating for just treatment for trans people by law enforcement to building supportive community spaces through her work with OUT Memphis - Kayla is a powerhouse advocate for trans Southerners, and we are so honored to have had her help with the 2019 edition of *Trans in the South*!

**Quentin Bell**  
Pronouns: He/him/his  
Quentin Bell is the founder and Executive Director of The Knights and Orchids Society in Selma, Alabama. Que is doing amazing and innovative work in Alabama to increase trans folks’ access to competent care, and through their Project FAITH (Fair Access in Transgender Health) Que and the TKO team are connecting folks with HIV testing and other resources for health at LGBTQ night clubs in Alabama. He is a dynamic leader for equity, and a true agent for change. We are so grateful for all of Quentin’s hard work on this year’s update!

**KC Buchanan, MSW**  
Pronouns: They/them/their  
KC Buchanan is an amazing advocate for trans and queer southerners. Their work includes co-founding OUT in the High Country, a grassroots advocacy and education group in Boone, North Carolina. KC is a systems-oriented social worker and is driven by a passion for creating access, equity, and justice across the South. We are so grateful for KC’s help in adding more providers from rural areas across the South to this year’s update!

**Jaymeson Rivers**  
Pronouns: He/him/his  
Jaymeson has been an advocate for the trans community for over 5 years. From serving on the leadership team for Gender Benders to serving in leadership of the Greenville Tech GSA and beyond, Jaymeson is a fierce advocate for trans folks in the South. Jaymeson is now based in Richmond, Virginia, where he’s continuing his advocacy work for trans Southerners. We were honored to have his help in expanding *Trans in the South*!
If you are in need of immediate help, please use these resources from anywhere in the country.

If you are thinking of hurting yourself, call the National Suicide Prevention Lifeline at:

English: 1-800-273-TALK (8255)
Spanish: 1-888-628-9454

State Resource Guide

Free HIV Testing through Charleston Area Medical Center
http://www.camc.org/freetestinglocations
If you’ve found the doctor you’re looking for, but you don’t know how you’re going to pay for your transition, then you’re in the right place! This section of the guide is all about how to fund your transition.

We know that evaluating the expenses involved in medical transition can feel really overwhelming, especially for a segment of the population that faces such high rates of under and unemployment. That’s why we included this section in the Trans in the South guide, and we hope you’ll find it helpful on your journey!

This section of the guide is a compilation of research on grants that are available to assist trans folks with medical transition, helpful things to know about insurance coverage, and tips and tricks to assist with crowdfunding. We would like to express our gratitude to the Jim Collins Foundation, KC Life Scholarship Fund, Rizi Timane Ministries, Point 5 CC Surgery Fund, Trans Love Fund, TUFF, TopSurgery.net, Out 2 Enroll, Kinneil Coltman, Jennifer Abbott, and transguys.com - all of which are working to support the trans community, and created or contributed the information on pages 62-69.

We compiled all of the information found on pages 62 - 66, which was pulled directly from these foundations’ websites. We created the information on pages 67 and 68 with the help of Kinneil Coltman of Carolinas Healthcare and Dr. Jennifer Abbott of Western North Carolina Community Health Services. The information found on page 69 was created by the folks over at transguys.com. We are happy to help amplify all of this work in hopes of connecting more trans folks with these vital resources.

Additionally, the Human Rights Campaign maintains a list of employers which offer at least one trans-inclusive healthcare plan; it is called the Corporate Equality Index, and they publish updates to this annually. This has been very helpful for many folks, as you can click through to find employers like Starbucks which offers trans inclusive healthcare plans after only six months of part-time employment.

All information is current in this section, to the best of our knowledge, as of January 2019. If you have additional resources to add, or would like to report out of date information for this funding section of the guide, please email me at Ivy@southernequality.org.

Best Wishes,
Ivy Gibson-Hill
Grants & Funding for Transition Expenses

The Jim Collins Foundation now offers two grant options. General Fund grants cover 100% of the medical fees associated with gender- affirming surgery. Grants from the Krysallis Anne Hembrough Legacy Fund cover 50% of the medical fees associated with gender- affirming surgery and require each recipient to match each dollar of funds received with a dollar of their own money or other money raised by the recipient. Applicants may only apply once per grant cycle and in their application must choose to be considered for either the General Fund or the Krysallis Anne Hembrough Legacy Fund.

Criteria for the Jim Collins Foundation Grants

Applicant must understand the steps that are currently required to undergo the medical process of transition, and must have completed (or have outlined plans to complete) the following steps:

- Secure a letter of support from a licensed medical or mental health professional, such as a psychologist, psychiatrist, social worker, or therapist.
- Select a surgeon who is knowledgeable in transition-related surgeries. If applicant is chosen, the organization assumes this named surgeon is final.
- Identify who will care for and provide support post-surgery.
- If applicant has not completed all of these steps, but is planning to do so, please include your plans in your application.
- Note: If you are selected for funding, the payment will be made directly to the doctor or hospital facility. You must comply with any and all requirements according to the Standards of Care of the World Professional Association for Transgender Health’s (WPATH), formerly known as the Harry Benjamin International Gender Dysphoria Association (HBIGDA), as determined by your selected surgeon.
- Applicant must demonstrate a genuine need for financial assistance.
- Applicant must detail the efforts they have made to fund-raise and the amount of cost that they will be able to cover on their own, if any.

The Jim Collins Foundation makes selections for grants based on a combination of demonstrated financial need and level of preparedness.
Grants & Funding for Transition Expenses

CK LIFE SCHOLARSHIP FUND

ONE surgery must be selected per application number (Hysterectomy With GCS will count as one surgery. Multiple FFS which are performed by the same surgeon in one operation will count as ONE surgery.) If you would like to be considered for different types of surgery, you may request a different application number for each type of surgery, but you must complete an entire application for each application number.

Criteria for the CK Life Scholarship Fund

• Cover Page
• Name (Both Legal and Preferred, if different)
• Date of Birth
• Contact Info (Email and/or Telephone)
• Must State which ONE Surgery* you are asking for assistance accessing.
• Name of Surgeon(s) you prefer, along with the surgeon’s contact info. An alternate surgeon MUST be named. If no alternate surgeon is listed an explanation must be given.

Personal Statement

• Write a personal statement of no more than 1000 words. (Anything beyond 1000 words will NOT be read.)
• Detail what efforts you have made to fund raise or save towards your surgery.
• Please include in this statement who will care for you and provide support post-surgery.
• Include how having surgery will impact your life. (Please be as specific as possible.)
• What will you do to try and afford surgery if you are not granted a scholarship? (Be as specific as possible.)

Professional Letter

• One letter from a Medical OR Mental Health Provider.
• Acceptable Providers: MDs, DOs, PHDs, Nurse Practitioners, Psychiatrists, Social Workers, Therapists, Counselors (if any questions about your provider, email us.)
• Letter must state how long you have been in transition and what steps you have taken/completed in your transition process.
• Note: We understand there is no one way to transition, but applicants must meet WPATH standards of care with regards to being eligible for scholarship approval. For a list of standards, check out the WPATH.

Information quoted from the CK Life Scholarship Fund
www.cklife.org/scholarship
Grants & Funding for Transition Expenses

Personal Reference

• From someone you know stating why they think you should be selected for a scholarship.
• Contact information should be included because the individual may be contacted for clarification and/or verification.
• Must be a maximum of 500 words. (Over 500 words Will NOT be read.)

Financial Statement

• State annual income and source of income
• Annual expenses
• Amount saved toward surgery, if any, with a break down (i.e. $500 for travel saved, $1,000 toward surgery saved etc.)
• Amount still needed toward surgery
• State whether or not you have insurance. If you have insurance, state what kind and why you are unable to use it for surgery.

All applicants will be given an application number. You can request an application number by emailing scholarshipfund@cklife.org. This number must be included on each page of application materials to help keep track of application.

Any awarded funds MUST be used within 3 months (for all non-genital surgery procedures) or 6 months (for genital surgeries) from the time they are awarded. If there are extenuating circumstances (such as surgeon has a long waiting list) then that time frame may be extended based on the circumstances. If the funds are not used in an appropriate amount of time, then the funds will go back into the pool of money toward the next scholarship cycle.

If you have any questions or concerns regarding this application process, please email: scholarshipfund@cklife.org

RIZI TIMANE MINISTRIES

Transgender Hormone Fund has awarded scholarships of $1,500 to six transgender women to assist with the purchasing of hormones each year. They also provide one surgery grant to a trans* person each year.

Please write a letter of interest and email it to rizi@rizitimaneministries.org for consideration. In the letter, be sure to tell us a bit about yourself (where are you from; are you GNC, FTM, or MTF; how far are you in transition; why do you need this fund; and other pertinent information.)

Information quoted from the CK Life Scholarship Fund and Rizi Timane Ministries
Grants & Funding for Transition Expenses

Point 5cc Surgery Fund awards money raised from T-shirt sales to go toward one person's gender affirming surgery each year. The grants are awarded in February. No criteria is up on their site currently. This year they awarded just over $1,200 to one person and had 57 nominations and 103 applications. For more information check out www.point5cc.com.

Trans Love Fund

The Trans Love Fund is a program of Alliance for Full Acceptance, an organization dedicated to providing resources, support and leadership development to LGBTQ+ youth. The Trans Love Fund is dedicated to helping the transgender community of South Carolina by providing microgrants to trans identified individuals for medical, legal, and emergency living expenses. Apply through www.wearefamilycharleston.org.

Trans United with Family and Friends (TUFF)

Founded in 2013, Trans United with Family and Friends (TUFF) aims to provide access to healthcare, transition services, safe housing and education for the underserved transgender population. TUFF offers individualized case management by pairing recipients to programs tailored to their specific needs. By focusing on the healthcare aspect of each recipient, TUFF also helps improve other aspects of their lives. TUFF holistically looks at the needs of each person, and has realized that if one area of someone's life improves, so will others. While most of TUFF's applicants express need with healthcare issues, it is clear that addressing these problems helps to improve other areas of their lives. For example, many of our applicants are unable to become employed because their body does not match their identity.

By being able to transition and receive healthcare, they are suddenly that much more employable. It is clear that people who have been able to transition are much more functional, confident and productive members of society.

At this moment, TUFF gets on average 100 applications per month for funding and resource requests. About a third of the applicants have no other options to find help and access to healthcare, schooling, safety and shelter and are at very high risk of suicide, homelessness and financial distress. TUFF will be at the forefront of this movement by providing resources and options for these individuals.

To apply for a grant download and submit their application form at www.tufforg.wixsite.com/tuffnew.

Information quoted from Point5CC Surgery Fund, Trans Love Fund, and TUFF:
www.point5cc.com/annual-transgender-surgery-fund
www.wearefamilycharleston.org/tlf www.tufforg.wixsite.com/tuff
The medical necessity of GCS has been affirmed by the American Medical Association, American Psychiatric Association, and World Professional Organization for Transgender Health, as well as the insurance company, Aetna.

“Keep in mind that coverage varies between health insurance companies, states, and plans. Don’t assume that one company, state or plan is consistent with their level of coverage. Read your policy completely—not just the summary—and look for the exclusions and limitations section.”

**COMMON REQUIREMENTS**

“To get top surgery covered by insurance, there are a number of requirements. Some of the hoops you may need to go through include:

- Meeting the insurance company’s basic criteria: legal adult status; Gender Dysphoria diagnosis; support letters from qualified mental health practitioners, your primary care provider and your surgeon.
- Having to pay out-of-pocket for surgery, then getting a reimbursement from the insurance company.
- Having to be evaluated by a board of in-network doctors.
- Finding in-network surgeons who have top surgery experience.

If you live in a state where surgery coverage is not mandated by law, you still might be able to get your top surgery covered via student health insurance or the insurance appeals process.”

**THE AFFORDABLE CARE ACT**

“The Affordable Care Act and The Patient’s Bill of Rights add several important protections in health insurance that affect transgender people:

- **Elimination of coverage denials:** Anyone can apply for health insurance and receive coverage for the care they need, regardless of their gender. (For example, hysterectomy coverage for a trans man.)
- **Pre-existing condition acceptance:** Insurers are no longer able to deny a person coverage based on having what an insurance company considers a pre-existing condition, which has included being transgender.
- **Plan cancellations are now illegal:** Canceling a plan used to be a way for health insurers to cancel coverage when a person’s health needs changed, such as coming out as transgender.”

For more information about trans health insurance coverage, please see state guides from Out2Enroll: [https://out2enroll.org/](https://out2enroll.org/)

---

2 Information quoted directly from Out 2 Enroll ([https://out2enroll.org/](https://out2enroll.org/)).
This fact sheet provides information about ICD-10 insurance codes and corresponding diagnoses and treatments for those codes. This document is intended to assist trans people in advocating for themselves with their healthcare providers and insurance companies. This information can help guide providers about insurance codes for trans healthcare that are commonly accepted and rejected.

If coverage is denied you can appeal that decision to your insurance company. Once you appeal a denial three times the appeal goes to an outside agency, and is often accepted. Ask your insurance provider about your specific appeals process. This fact sheet does not guarantee coverage from insurance providers. The best way to get information about your specific plan coverage is to speak with your insurance company.

### CODES THAT ARE COMMONLY REJECTED BY INSURANCE PROVIDERS

<table>
<thead>
<tr>
<th>CODE</th>
<th>CONDITION</th>
<th>COMMENTS</th>
</tr>
</thead>
<tbody>
<tr>
<td>F64</td>
<td>Gender Dysphoria/Gender Identity Disorder</td>
<td>Rarely covered in North Carolina but employers can request expansion.</td>
</tr>
<tr>
<td>Q56.3</td>
<td>Intersex code requires chromosomal documentation</td>
<td>Typically diagnosed in childhood and allow for full spectrum of gender surgery</td>
</tr>
</tbody>
</table>

*A note about F64: Some insurance providers will require this code for gender affirming surgeries. It is also often required for adolescents to get hormone interventions covered.*

Campaign for Southern Equality has created this fact sheet to assist trans and gender diverse people seeking medical interventions in advocating for ourselves with our healthcare providers and insurance companies. Questions about coverage and specific plans should always be directed to insurance providers. The Campaign for Southern Equality gives special thanks to Kinneil Coltman of Carolinas Healthcare and Dr. Jennifer Abbott of Western North Carolina Community Health Services for their assistance with compiling this information.
Additional Information for Insurance Coding Appeals

“The patient’s specific insurance plan has a transgender care exclusion in their coverage. Most insurers have an exclusion of coverage for transition-related coverage as their standard language and do not remove it unless a state has issued guidance that says that exclusions of trans care are illegal, or the plan receives federal funds to pay for premiums (or payment for a third party administer), such as a federal or state marketplace plan, Medicare or Medicaid programs (many states are out-of-compliance with the federal rules for their Medicaid programs). This is the most common, and most folks don’t know they have an exclusion until they are told where to look. This does not mean that it is impossible to get care covered, but the appeals process is much harder.

Coverage for specific procedures: Some coverage is categorically excluded because they are viewed as cosmetic (i.e. breast augmentation, body contouring, facial feminization procedures) - generally speaking, these are hard to appeal and clearly delineate why they are medically necessary to meet the insurer’s standards. Some ‘subprocedures’ are also not covered, even if the main procedure is covered (i.e. double mastectomy is covered for transgender men, but not nipple reconstruction; phalloplasty may be covered, but the testicular implants are not, often citing cosmetic purposes) – when this occurs, the service is easier to appeal, because most of these procedures are available to cisgender people, and the case can be made that the ‘cosmetic ruling’ is being applied to trans people for the sake of denying care (i.e. sex discrimination).

Coverage issues can occur when someone is getting a ‘sex-specific procedure’ such as a pap smear or a PSA testing for prostate exams, this is typically related to what gender marker the patient currently has on their health insurance account. While this discrimination is illegal, this happens with some frequency, but can be fixed using KX or 45 modifier. This is more of an educational issue to medical providers, but most do not know that they can code in this fashion to assure that their patient’s care gets covered.”

transline.zendesk.com/hc/en-us/articles/229372908-Coding-for-Transition-Related-Care

This information is pulled directly from “Gender Reassignment Surgery Model National Coverage Determination,” a toolkit created by the Transgender Medicine Model National Coverage Determination Working Group with the assistance of Nick Gorton, MD of Lyon-Martin in San Francisco. The Campaign for Southern Equality gives special thanks to Kinneil Coltman of Carolinas Healthcare and Dr. Jennifer Abbott of Western North Carolina Community Health Services for their assistance with compiling this information.
PLANNING YOUR CAMPAIGN

• “Write an honest letter to your would-be funders about why you need the funds. Ask for what you need and not more.
• Keep in mind that running and publicizing a crowdfunding campaign can be quite time consuming. Delay your campaign if you’re overworked, burned out, etc.
• Have realistic expectations: more than half of Kickstarter campaigns fail to make their goal. Assume that only 1% of your contacts will contribute.
• The currency of crowdfunding is relationships, so get your target audience right. If all your friends are broke and also saving for surgery, you’ll need to re-think your plans.
• Make a great video promoting your campaign and put it on your donation page. Be creative, entertaining and honest. Solicit an emotional response.
• If you’re offering rewards / backer levels, structure them carefully and budget the cost of fulfillment. While the average donation amount will probably be under $50, use your creativity to create attractive “upper end” rewards as well.
• Study successful campaigns and try to reverse-engineer their path to success.”

CROWDFUNDING SERVICES

“Before you pick a crowdfunding service, consider: Do you really need one? These services take a commission on the funds raised (examples below.) Many people have had good success using a self-hosted donation page (hosted on their websites or on WordPress.com/Blogspot/etc.) with a form integrated with PayPal or WePay, where fees hover around 3%. Here are some popular services and their fee schedules, as of September 2016:”

- DonationsTo: 5% + PayPal or Wepay fees (typically 2.9% plus $.30 per transaction). 0% Paid accounts also available.
- Fundly 7.9%
- FundRazr 5% + PayPal fees (typically 2.9% plus $.30 per transaction)
- GiveForward* 7% - **Specifically for medical fundraising**
- GoFundMe 7.9% + 0.30
- GoGetFunding: 4% + PayPal fees (typically 2.9% + $0.30 per transaction)
- Indiegogo: 4%-9%
- RocketHub: 8% – 12%
- You Caring: $0 + PayPal or Wepay fees (typically 2.9% plus $.30 per transaction)

<table>
<thead>
<tr>
<th><strong>Term</strong></th>
<th><strong>Definition</strong></th>
</tr>
</thead>
<tbody>
<tr>
<td><strong>CISGENDER</strong></td>
<td>A term for someone whose gender identity corresponds with the sex they were assigned at birth; not transgender.</td>
</tr>
<tr>
<td><strong>DRAG KING</strong></td>
<td>A person who is expressing hyper masculinity through performance art.</td>
</tr>
<tr>
<td><strong>DRAG QUEEN</strong></td>
<td>A person who is expressing hyper femininity through performance art.</td>
</tr>
<tr>
<td><strong>GENDER</strong></td>
<td>A socially constructed system for classifying people into categories. Different cultures use different systems for this classification.</td>
</tr>
<tr>
<td><strong>GENDER CONFIRMATION SURGERY</strong></td>
<td>Any form of surgical procedure performed on a transgender or gender nonconforming person in order to make their primary or secondary sex characteristics better reflect their gender identity. This may include different types of “top surgery”, “bottom surgery”, or other procedures. Contrary to popular belief, there is not one surgery; in fact there are many different surgeries. Not all transgender or gender nonconforming people desire gender confirmation surgery and each person’s pathway to medical transition is unique. “Gender Confirmation Surgery” is preferable to the previously used term “Gender Reassignment Surgery”, and many consider “sex change surgery” derogatory.</td>
</tr>
<tr>
<td><strong>GENDER EXPRESSION</strong></td>
<td>Refers to the ways in which we each manifest masculinity, femininity, both, or neither. Gender expression may or may not align with someone’s gender identity. This visible expression of gender includes hairstyles, clothing choices, body language, etc.</td>
</tr>
<tr>
<td><strong>GENDER IDENTITY</strong></td>
<td>One’s innermost concept of self as it relates to gender. How individuals experience gender personally. One’s gender identity can be the same or different from their sex assigned at birth. Gender identity cannot be seen from looking at a person.</td>
</tr>
<tr>
<td><strong>GENDERING</strong></td>
<td>The act of assigning a gender to another person. Incorrectly assigning a gender to another person is called misgendering.</td>
</tr>
<tr>
<td><strong>GENDER NON-CONFORMING</strong></td>
<td>A term for individuals whose gender identity or expression falls outside the gender binary of man and woman. Some examples of gender non-conforming identities include genderqueer, agender, bigender, gender fluid, etc.</td>
</tr>
<tr>
<td><strong>INTERSEX</strong></td>
<td>A general term used for a variety of conditions in which someone’s body doesn’t seem to fit the typical definitions of male and female. We often associate intersex with conditions seen at birth, but there are many conditions that aren’t seen at birth, such as androgen insensitivity syndrome, for example.</td>
</tr>
</tbody>
</table>
**Glossary of Terms**

**Pronoun**
The words used to refer to someone instead of using their name. He is a masculine pronoun; she is a feminine pronoun; they is a neutral pronoun. Pronouns are the most common way that we gender people.

**Queer**
An umbrella term used to refer to sexual and gender minorities that are not cisgender or heterosexual.

**Sex**
The categorization of people based on external physical characteristics (e.g., hip to shoulder ratio, facial and body hair, vocal pitch, muscle mass, genital configuration, etc.)

**Sexual Orientation**
A person’s sexual identity in relation to the gender or sex they are attracted to.

**Transgender**
An umbrella term for people whose gender identity differs from the sex assigned to them at birth. Transgender is often shortened to “trans”, and is inclusive of gender nonconforming identities.

**Transgender Man**
A person who was assigned the sex of female or intersex at birth and identifies as male.

**Transgender Woman**
A person who was assigned the sex of male or intersex at birth and identifies as female.

**Transition**
The period during which a person begins to live as their true gender. Transitioning may include changing one’s name, changing their presentation, taking hormones, having surgery, or changing legal documents to reflect their true gender. Or transition may not include any of those things, depending on what that person wants or doesn’t want.

**Informed Consent**
A provider who prescribes hormones with informed consent does not require a letter from a therapist to prescribe hormones.

**Endocrinologist**
A doctor who specializes in issues related to hormones. These doctors may oversee medical transition in terms of Hormone Replacement Therapy (HRT).

**HRT (Hormone Replacement Therapy)**
The process in which hormones and hormonal treatments are administered. HRT is not sought out by all transgender individuals, nor is it a requirement for transitioning.

**GCS (Gender Confirmation Surgery)**
Surgical procedures in which a person’s body is altered to change their gender expression. GCS is not sought out by all transgender individuals, nor is it a requirement for transitioning.

Thank you for checking out *Trans in the South: A Guide to Resources and Services!*

We are grateful to those who maintain other resource guides to make it easier for trans people to access competent medical care. Some of these resource guides include Trans Bucket, RAD Remedy, Funding your transition: A Resource Guide, Southeastern Trans Resource Guide, Charlotte Transgender Healthcare Group, TranzMission, LGBT Patient Care Collaborative in Upstate SC, and HRC’s Safer Sex for Trans Bodies. And of course none of this would be possible without the thousands of trans folks living across the South who share resources with each other.

We’d also like to thank providers who have shared information and resources, including Dr. Claire Farel, Kinneil Coltman, and the Transgender Health Program at WNCCHS. Compiling this resource guide was a labor of love and would not have been possible without the help of the Research and Development Team, and the entire Campaign for Southern Equality team, including designer Adam Polaski.

If you have additional resources to add to *Trans in the South*, or you want to report out-of-date information, please email me at ivy@southernequality.org.

I hope this guide improves your experience accessing services. We give many thanks to the providers who are listed here and to the organizations and agencies working every day to ensure that trans folks in the South have access to resources, services, and support.

Best wishes,
Ivy Gibson-Hill
Community Health Program Director
Campaign for Southern Equality
In the pages of Trans in the South you’ll find lists of trans-friendly service providers – from doctors to attorneys to counselors – across the South, as well as resources that assist with funding medical transition. This information has been collected and vetted by the Campaign for Southern Equality. We hope this resource guide helps people access the services they need to survive and to thrive.

New data from the Williams Institute shows that more than 500,000 trans folks call the South home. Too often, they face a lack of resources and support. We often hear stories of people going without medical care or traveling hours to reach a doctor who will treat them with respect. That’s got to change.

We’re grateful to the many providers and agencies listed in this guide and to partner groups in the South and nationally that also put out resource guides. We’ve done our best to curate this updated guide to be as thorough and accurate as possible about trans-friendly services across the South.
